

THE FUTURE IS NOW!

PASSION FOR PERFORMANCE

High Performance DURONTO
FX DRILLS
3xd upto 40xd

Specially Engineered Wavy Cutting Edge:

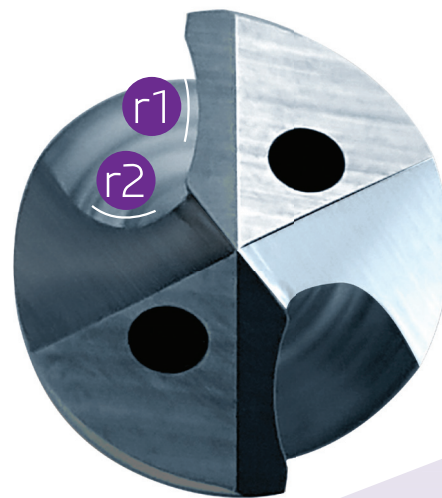

Sharp peripheral edge cutting performance with a strong initial cutting point near center.

Flute Geometry:

Wide flute geometry in combination of 2 radius generates initial curling of the chips and further promotes smooth chip evacuation

Specially Engineered Point Geometry:

Duronto - FX is highly self-centered for accurate hole positions and lowering the thrust exhibited on the drill.
